

BO-SINGLETTEMP180 SIF 300/500

SINGLE CORE FLEXIBLE CONDUCTOR SILICONE RUBBER INSULATED CABLE

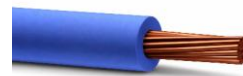

Image for illustration only

Conductor:	Flexible bare or tinned copper conductor (IEC EN 60228 Class 5)
Insulation:	Silicone rubber
Colour:	Black, White, Red, Blue, Green, Yellow, Brown, Grey, Orange, Violet Other colours available upon request.
Cable Printing:	On request.
Technical Data & Standard References	Advantage Good resistance to high and low temperature. Weather resistant
	Norm references / Approvals: Conductor: IEC EN 60228 Class 5 Halogen free: IEC 60754-1 / -2 (Halogen free)
	Technical Data: Working temperature: -60 °C to +180 °C Peak temperature: 210 °C Nominal voltage: 300/500 V Test voltage: 2000 V

TECHNICAL DATA AND PRODUCT FEATURES

	TEMPERATURE RANGE -60 +180 °C
	TEST VOLTAGE 2000 V
	HALOGEN FREE IEC 60754-1 / -2 (Halogen free)

Application: Good resistance to high and low temperature. Weather proof
