

BO-MULTI TEMP 180 SIHF-GL 300/500V

MULTICORE FLEXIBLE CONDUCTOR SILICONE RUBBER INSULATED CABLE WITH FIBERGLASS BRAID AND STEEL BRAID

Image for illustration only

Conductor:	Flexible bare or tinned copper conductor (CEI 20/29 Class 5, IEC EN 60228 Class 5)
Insulation:	Silicone rubber + Fibreglass braid + Steel Braid
Inner Sheath:	Silicone rubber
Screen:	Copper braid
Outer Sheath:	Silicone rubber
Cable Printing:	On request.
Technical Data & Standard References	Norm references / Approvals: Halogen free: CEI EN 50363-5
	Technical Data: Working temperature: -60 °C to +180 °C Peak temperature: 210 °C Nominal voltage: 300/500 V Test voltage: 2000 V

TECHNICAL DATA AND PRODUCT FEATURES

	TEMPERATURE RANGE -60 +180 °C
	TEST VOLTAGE 2000 V
	HALOGEN FREE CEI EN 50363-5 (Halogen free)

Application: Good resistance to high and low temperature. Weather proof

WARNING: cables for static use.
